

1. All dimensions in millimetres.
2. Refer to General Notes Drawing A3/PTD/6547/189A.
3. This drawing is based on ENATS drawing 435004.
4. For terminal pole assembly refer to drawing A0/PTD/6547/134

Designer's site specific risk assessment																			
By: L.Ridgway					Date: 15/03/16														
☐ No works associated with this drawing																			
☒ Controlled by existing procedure/work instruction																			
☐ Special control required:- ☐ Detailed on drawing ☐ Detailed on separate document																			
☒ No temporary works required																			
☐ Temporary works required and documented separately																			
☐ Drawing contains temporary works; <table border="0"><tr><td style="border: 1px solid black; padding: 2px;">0</td><td>Generic or proprietary solution</td><td rowspan="4" style="font-size: 3em; vertical-align: middle; padding: 0 10px;">}</td><td rowspan="4">Complete temporary works design check certificate: DE-SF-0081</td></tr><tr><td style="border: 1px solid black; padding: 2px;">1</td><td>Specific basic design</td></tr><tr><td style="border: 1px solid black; padding: 2px;">2</td><td>Specific design</td></tr><tr><td style="border: 1px solid black; padding: 2px;">3</td><td>High risk or specialist design</td></tr></table>										0	Generic or proprietary solution	}	Complete temporary works design check certificate: DE-SF-0081	1	Specific basic design	2	Specific design	3	High risk or specialist design
0	Generic or proprietary solution	}	Complete temporary works design check certificate: DE-SF-0081																
1	Specific basic design																		
2	Specific design																		
3	High risk or specialist design																		
Red OK to proceed providing specific design hazards and risks have been recognised, acknowledged and understood by the operation team. Site operatives may require additional instruction/training																			
Amber OK to proceed as detailed in existing work instruction or procedure detailed on drawing or separate document.																			
Green OK to proceed, no significant design hazards and risks, standard control measures apply.																			
! CDM REGULATIONS RESIDUAL RISKS																			
Design based hazards are actively eliminated where possible. Where hazards cannot be eliminated, this symbol along with an attached note will identify the hazard and indicate that an action is required by the person supervising the works to manage the design hazard during construction. Other than those noted, we are not aware of any further residual design risks apart from those that a competent contractor would ordinarily consider.
