

1. All dimensions in millimetres.
2. Refer to General Notes Drawing A3/PTD/6547/189A.
3. This drawing is based on ENATS drawing 435004.
4. For terminal pole assembly refer to drawing A0/PTD/6547/134

A2/PTD/6547/165									
Designer's site specific risk assessment.									
By: I.Ridgway					Date: 15/03/16				
☐ No works associated with this drawing									
☒ Controlled by existing procedure/work instruction									
☐ Special control required:- ☐ Detailed on drawing ☐ Detailed on separate document ☒ No temporary works required									
☐ Temporary works required and documented separately									
☐ Drawing contains temporary works: 0 1 2 3 Generic or proprietary solution Specific basic design Specific design High risk or specialist design } Complete temporary works design check certificate: DE-SF-081									
Red OK to proceed providing specific design hazards and risks have been recognised, acknowledged and understood by the operation team. Site operatives may require additional instruction/training									
Amber OK to proceed as detailed in existing work instruction or procedure detailed on drawing or separate document.									
Green OK to proceed, no significant design hazards and risks, standard control measures apply.									
CDM REGULATIONS RESIDUAL RISKS Design based hazards are actively eliminated where possible. Where hazards cannot be eliminated, this symbol along with an attached note will identify the hazard and indicate that an action is required by the person supervising the works to manage the design hazard during construction. Other than those noted, we are not aware of any further residual design risks apart from those that a competent contractor would ordinarily consider.
